

Wodna Nuta swimming pool

Recreational
For children

One of the newest and most architecturally-unique sporting venues in Opole. Those who like competitive or near-competitive swimming will love the 10-lane, 50 m swimming pool with a movable bulkhead which makes it possible to organise professional competitions. The building also features a warm-up/recreational swimming pool, hydro massage equipment, as well as a current and flotation pool. Other facilities include a sauna, two steam baths, a bar and a conference room. Also worth noting is the fact that all facilities are disability-friendly.
