

Opole Medical School

Dla Studenta

The school offers five study programmes: Nursing – 1st and 2nd cycle programmes, Obstetrics – 1st and 2nd cycle programmes, Physical therapy – 5 year programme, Cosmetology – 1st and 2nd cycle programmes, Dietetics – 1st cycle programme.
It offers courses for nurses and obstetricians, as well as certification, specialist, supplementary and refresher courses for health care assistants, paramedics, physical therapists, cosmetologists and first aid instructors. Post-graduate courses on offer include podiatry, mountain and high-altitude rescue and medical cosmetology.
Since its inception, the OMS has been working together with many other medical universities in Poland, Opole University and the Opole University of Technology. Practical classes for students take place in hospitals and other health care institutions in Opole and the rest of the province.
Students of the “Opole medical” have on multiple occasions been awarded scholarships by the Minister of Science and Higher Education and the Marshal of Opole Voivodeship for their academic achievements and charity work. Annual events organised since 2008 include the country-wide Student Science Club Conference and the Cross-University Nursing Olympiad. The students are active members of the Blood Donor Club and organise awareness campaigns for a foundation promoting

bone marrow donation, in addition to participating in various student clubs.
The OMS operates an important medical publishing house. The school publishes periodicals, monographs and textbooks focusing on nursing, obstetrics, physical therapy practice, cosmetology, ethics in medicine and nursing and health care management. It also publishes a ranked medical quarterly titled Medical Science Pulse (6 points awarded by the Ministry of Science and Higher Education). The journal is a peer-reviewed publication targeted at students, graduates and medical university employees.
